

Canada, Stand up For Children's Rights

I am asking you to care about what is happening to Palestinian children.

Petition e-2667 asks the Canadian government to appoint an envoy for the protection of Palestinian children, who are detained by the Israeli military & illegally held in Israeli prisons.

This is something of which not many Canadians are aware. It is also something you would not want to happen to your own child.

Please add your signature to this petition and share it with those you care about.

It is a small thing that we Canadians (citizens & permanent residents) can do to help protect children. There is no age limit. Canadian children – old enough to understand what is happening – can also add their names to the Petition. Together we can make a big difference.
